

# CAMP CONRAD CHINNOCK

Diabetes Camping & Educational Services

Date: 1.24.2022

## 2022 Summer Programming (Quick Read)

Here we are again! The last two years have obviously been challenging for everyone, but Camp Conrad Chinnock is still here and we are determined to be a positive force in our community! The need for meaningful and memorable outdoor experiences is more important than ever for our children living with Type 1 diabetes. As always, we are committed to providing a safe and magical summer, so below are the latest updates on how camp will operate in 2022. We highly recommend you cover these changes with your camper so you both know what to expect this summer. As always, if you have any questions please get in touch!

### Pre-Camp Health Checks

- Campers who are not vaccinated will need to be tested for COVID-19 no more than 3 days (72hrs) prior to their session and receive a negative result.
  - *A determination will be made closer to our summer sessions if we will require all campers, staff and volunteers to be tested regardless to vaccination or booster status. – We are currently requiring this rule for all Winter Camp attendees.*
  - *Please note an additional fee of \$25 may be collected on May 31st to purchase an at home rapid COVID-19 test which will be provided by Camp.*
- Camper families will be asked to be extra vigilant in following state guidelines such as not traveling, avoiding large gatherings, wearing a mask and physically distancing for 5 days prior to their session.
- Campers with a higher risk of complications due to COVID-19 must consult with their healthcare provider before deciding on whether to attend camp.
- If a camper, or someone in a camper family, exhibits any symptoms of COVID-19 within 5 days of their camp session, they will not be allowed to attend camp.

### Vaccinations

- We are suggesting that all eligible campers are fully vaccinated before arriving at camp. This means receiving the second dose two weeks prior to your camper check-in. Although this is not a requirement, it is another layer of protection that will help keep camp healthy and safe this summer.
- We are also encouraging all our counselors and other camp staff to be vaccinated prior to arriving for staff training, although this is not a requirement for hiring.

## Check-in & Check-out

- Summer 2022 we will be going back to our Fontana Bus stop for all check-in and pick-up. No campers will be allowed to check-in at Camp. (*This excludes Family Camp sessions*)
- Session check-in starts at 10:00am at the bus stop in Fontana. We will depart on the last day of each session from Camp Conrad Chinnock at 10:00am, allowing us to be back at the Fontana bus stop at approximately 11:30am / 12 Noon. You will receive details of your designated check-in / pick-up times in your pre-camp email.
- Only one family member / guardian will be allowed at check-in and check-out.
- Family members / guardians and campers will be required to wear masks throughout the check-in and check-out process.
  
- Verbal health checks of family members and campers will be performed at check-in.
- Cabin size will be limited to 10-12 campers. This 'cabin group' will stay together for the entire week.
- Bunk beds are placed apart from each other and campers will sleep head-to-toe. Sharing of items will be discouraged.
- Cabin groups will use showers at scheduled times to avoid overlap with other cabin groups.
- In general, cabin groups will rotate through activities at camp. Some activities will be limited based on total camper population in a week.
- The vast majority of the time, campers will not have to wear masks. However, camp cannot be completely 'mask free'.
- Masks must be worn when in a 'public' building / space where other cabin groups may be present. Examples include dining halls (unless eating / drinking), meeting spaces, game lodge, and bathrooms.
- Masks are not required while in cabins / sleeping areas.
- Masks will not be worn outside unless for some reason a cabin group cannot stay more than 6ft away from another cabin group.
- Please make sure campers have 5-7 masks for the week in case one is lost or misplaced, but camp will also have spares.

## Meals & Dining

- Masks must be worn when in a 'public' building / space where other cabin groups may be present. Examples include dining halls (unless eating / drinking), meeting spaces, game lodge, and bathrooms.
- Cabin groups will sit at designated tables and tables will be at least apart.
- Our goal is still to provide a choice of tasty food items at each meal, with healthy eating options and plenty of liquids.
- Salad bar, sandwich bar, breakfast bar and toast bar will be replaced with pre-packaged items or grab and go options where possible.

## **COVID-19 Case at Camp**

We are committed to being honest and transparent with our families, and despite our best efforts and precautions to ensure a safe experience for all, the truth is that we can't guarantee that COVID-19 will not affect someone at camp. It is up to each family to make the decision about whether to send their child to camp.

If there is a confirmed or suspected case of COVID-19 at Camp, below is a general guide to the steps we will take to ensure everyone is as safe and informed as possible:

- Treat any symptoms.
- Isolate any camper or staff member involved.
- Have staff members tested.
- Notify family member / guardian of any camper involved.
- Notify other camper families as appropriate.
- Notify the County Health Department and assist with any contact tracing as required.
- Deep clean and sanitize any affected areas.

Based on the situation we may also:

- Require family members / guardians of campers to pick up their child from camp immediately.
- Request medical assistance if a case is severe enough, based on the advice of our healthcare staff.
- Shut down all or part of camp programming for a period.
- We hope this plan is never required, but we want our families to be prepared for all eventualities.

## **Cancellation and Refunds**

To continue planning for our 2022 Season and to cover expenses associated with COVID-19 preparations, staffing costs, and payroll; refunds will not be made after May 31st 2022 due to illness or change of heart. If you wish to cancel before that date, please notify the office in writing of cancellation to receive a refund minus your \$100 non-refundable deposit. For any sessions prior to May 31<sup>st</sup> 2022, we require 10 days' notice before your session begins in writing of cancellation to receive a refund minus your \$100 nonrefundable deposit. We understand that this is an investment for our families, but we are unable to move forward if we do not secure finances.

If the camp is unable to operate due to State Guidelines, our office will contact you to determine how you would like your fees allocated: 1.) Refund your program fee (minus \$50 non-refundable processing fee), 2.) Apply your fee to a future session, or 3.) Consider your fee a tax-deductible donation (either all or a portion of the fees that you choose)

## Miscellaneous

- Our Camp Store will be available during the week for campers to purchase water bottles, diet soda, low car. snacks, sweat shirts, hats, etc. We recommend that campers should have at least \$25 - \$40 within their store account per session.
- We will upload pictures of 'all camp' activities (dance, campfire etc.) regularly to our Facebook page. Our camp group photo's will be given to each camper on the last day of camp along with a camp tee shirt.
- More detailed information can be found within our Covid-19 Guideline book located on our website.
